Agenda item: **Consideration of Agenda approval.**

Board action on agenda item: Chair Kinloch, duly supported by Vice-Chair Haroutunian, moved to amend item #4 to include Report from Election Source. The motion was adopted unanimously by a voice vote.

Agenda item: **Report from Election Source**

Board action on agenda item: Chair Kinloch stated that there were some concerns and issues with the web reporting of results on election night. He stated that the Board had invited the CEO of Election Source to answer some questions regarding the issues on election night.

Jeff DeLongchamp, President of Election source provided the Board with the company's background and their years of election support and service experience. Chair Kinloch asked Mr. DeLongchamp to explain what happened on election night that caused some of the results for some candidates to display double the number of votes.

Mr. DeLongchamp stated that there was a mapping and server error that caused results to merge together and in some cases it displayed double the vote totals. The old data going out and the new data coming in were combining vote totals instead of the new data replacing the old data.

Assistant Corporation Counsel Janet Anderson-Davis asked several questions related to how long had the company been in business, to explain in lay terms how old data and new data is handled by the system, if Election Source was contracted to provide web reporting, if the State of Michigan has any standards for web reporting, could a third party have interfered with the results, was the display error any fault of the County Clerk or local clerks, and what steps have been put in place to remedy this issue.

Mr. DeLongchamp answered all questions asked by Ms. Anderson-Davis and offered to provide the coding and data for any agency that wanted to conduct an investigation into their system. He stated none of the issues experienced on election night were the fault of the County Clerk or any local clerks. He further stated that the system simply wasn't prepared for the size of the data file and

going forward steps have been put in place to increase the speed in which their system receives data.

Chair Kinloch thanked Mr. DeLongchamp and the Election Source representatives for answering their questions and concerns.
