Planning Questions & Answers

Question	Answer
How many districts?	15
Are they single member districts?	Yes
Did you use the 2010 Census figures?	Yes
Are the districts contiguous?	Yes
Are the districts compact?	All districts are compact as possible respecting population numbers and civil boundary lines.
Are the districts nearly square in shape as is practicable?	All districts are as square as possible respecting population numbers, civil boundary lines and the shoreline of the Detroit River.
Were the districts drawn for partisan political advantage?	No
What is the ideal population?	121,372 (1,820,584 Total Population / 15 Districts = 121,372)
What is the population for each district?	See Table 1
What is the total deviation for each district?	See Table 1
What is the total deviation?	8.45
How was it calculated?	The total population divergence or deviation is calculated by adding the percentage deviations from perfect equality of the districts with the highest deviations above and below perfect equality.
How is the plan different from the 2000/present plan?	The plan attempts to comply with redistricting principles by creating compact, contiguous and nearly square districts taking into effect the increase/decrease in population from 2010 census data. This was done to achieve maximum equality among the districts.
What effects does it have on incumbents?	The effect on incumbents was not considered.
How many townships/cities are split? Why	Three cities were split to balance population.
Which townships/cities are split? Why?	Detroit and Livonia, which are the same two communities split in the 2001 plan, and Westland is split to balance population. This was done to achieve maximum equality among the districts.
How many voting districts/precincts are split? Why?	None
Were any geographical features considered?	Yes. City and township boundaries, major streets and voting tabulation districts (precincts) in an attempt to make each district as compact, contiguous and square as possible while maintaining population standards.
What is the Hispanic population in each district?	See Table 1
What percent of each district's population is Hispanic?	See Table 1
What is the African-American Population in each district?	See Table 1
What percent of each district's population is African-American?	See Table 1
What is the Asian American Population in each district?	See Table 1
What percent of each district's population is Asian American?	See Table 1
