

Office of the County Clerk

Elections Division

Cathy M. Garrett
Wayne County Clerk

May 26, 2026

STAFF REPORT (REVIEW OF NOMINATING PETITIONS)

Susan L. Hubbard
Candidate for Judge of Probate Court – Wayne County – Non-Incumbent Position

NUMBER OF VALID SIGNATURES REQUIRED: 4,000 signatures

TOTAL FILING: 5,494 signatures submitted (maximum number allowed 8,000)

RESULTS OF FACIAL REVIEW:	5,494 signatures
Incomplete or Improper Headers	- 10
Incomplete or Improper Circulator Certificate	- 0
Incomplete or missing signatures	- 0
Incomplete or missing date of signing	- 22
Incomplete address or improper jurisdiction	- 1

Total number of reviewable signatures: **5,461 signatures**

ANALYSIS OF CHALLENGE

TOTAL NUMBER OF SIGNATURES QUESTIONED UNDER CHALLENGE: As a result of the challenge filed by Matthew Wilk, 2,255 signatures are at issue. After a facial review, candidate Hubbard had a cushion of 1,461 signatures. Because the number of signatures challenged exceeded Hubbard's cushion, staff began to process the challenge.

Staff review of the challenges submitted by Matthew Wilk and provides the following staff report of its findings:

The challenger alleges through his sworn complaint that candidate Hubbard's petitions contain a significant number of non-registered signatures, duplicate signatures, and forgeries of petitions submitted by individuals known to commit massive signature fraud. The challenger indicates that he hired a professional data verification firm, Victory Field Operations ("VFO") to conduct a line-by-line analysis against the Michigan Qualified Voter File (the "QVF"), the State of Michigan's official record of

registered voters in Michigan. He further alleges that the line-by-line analysis estimates that a total of 3,451 signatures matched to a registered voter within the QVF.

The challenge further alleges that circulators Bridgette Hawkins and Gersena Guyton are documented by the State Bureau of Elections in an official Staff Memorandum titled “Staff Memo on Petition Sheets Showing Clear Indications of Fraud” dated May 24, 2024. Wilk claims that between the two circulators approximately 46 petition sheets containing 447 petition signatures must be stricken as the signatures are tainted due to the determinations made by the Secretary of State during the 2024 election cycle.

Staff is aware of the fraud allegations and findings from the 2024 election cycle. On February 23, 2026, the Michigan Board of State Canvassers issued a memo to Candidates, petition sponsors, and petition circulators with the subject: “Disqualification of persons and organizations from collecting petition signatures”. (see attached) In the memo the State Board of Canvassers identified two individuals and three companies that were disqualified from circulating petitions for four years in the State of Michigan, pursuant to MCL 158.544c(13)(c). The memo goes on to state that from the date of issuance until February 23, 2030, “each petition signature identified in a challenge as gathered and found to be gathered by the following individuals or by a circulator hired by the following companies shall be determined to be invalid.”

The two circulators listed in the challenge were not named in the memorandum, nor was any information provided to the County Clerk identifying these two individuals as being employed or previously employed by one of the three companies disqualified from circulating petitions. In addition, no information was provided that either individual was convicted of submitting fraudulent petition signatures nor have they been banned by the Board of State Canvassers from circulating petitions.

An extensive review by clerk staff of the petition sheets circulated by the above-named individuals does not raise any alarms of fraud or impropriety by the circulators. Of the 447 signatures challenged, 350 signatures were found to be valid, 62 were not registered or not registered in the jurisdiction listed on the petition, 10 signatures were insufficient (either the signer printed in both sections or the signature did not sufficiently match the signature on file within QVF), 21 duplicates, and 4 signatures with date errors.

County Clerk staff reviewed the entirety of the petition filing and identified approximately 104 sheets, containing 973 petition signatures that appear to be forged or fraudulently signed by a person or persons not purported to be the petition signer. Multiple staff members report issues with the petition signatures contained on petitions circulated by “Maliek Phillips” residing at 1935 Chene Court, Detroit, MI 48207.

A voter registration check of the QVF produces a challenged registration record for Maliek Alexander-Jonda Phillips at 3520 E. Jefferson, Detroit, MI 48207. Of the petitions submitted by circulator Phillips, the pattern of fraud includes same and similar handwriting, signatures obtained by signers with the frequently used last names of King, Walker, Battles, Styles, Smith, Peoples, Kirk, Gordon, Jenkins, and Harris. While the presence of common names is not an alarm on their own, it is the presence of the same last names with the same or similar handwriting on multiple petitions sheets that did not match or bear a resemblance to the voter’s signature in QVF. Petitions sheets 30, 32, 33, 34, 35, 36, and 46 almost entirely indicate signatures with the same or similar handwriting from signers with the last name of King, Smith, Styles, Walker, Kirk, Carl, or Carlton.

These irregularities along with the review of the challenged signatures caused staff to review all signatures obtained by circulator Phillips. Staff noticed misspellings of printed names, street names, omission of the signer's last name on the petition, and signers not registered or registered at the address on the petition. When a signer is not registered at the address listed on the petition, staff relies on the signature on the petition to assist with identifying the signer in QVF. For example, petition page 289 line 3, 4, 5, 8, 9, and 10 all contain the voter's first and middle name, with the last name omitted. This pattern continues throughout the petitions circulated by Phillips. Same or similar flourishes, slants, distinctive letters of "J", "W", "L", "K", and lowercase "f" appear repeatedly.

For these reasons stated above the 104 petition sheets containing approximately 973 signatures submitted by circulator "Maliek Phillips" are **disqualified** from consideration. (A full list of the disqualified petitions and the number of signatures for each petition is attached.) County Clerk staff recommends the petitions purported to be circulated by circulator "Maliek Phillips" residing at 1935 Chene Court, Detroit, MI 48207 or 3520 E. Jefferson, Detroit, MI 48207, be referred to the Michigan Secretary of State's Office and/or the Attorney General's departmental Office of Investigative Services (OIS) for a full and complete investigation for forgery and fraud.

To process the remainder of the challenge, staff calculated the balance of challenged signatures that remain eligible for review. Of the 2,255 signatures challenges, 684 challenged signatures overlapped with the disqualified signatures, reducing the number of challenged signatures for review to 1,571.

23 overlapping challenges for invalid date, address, or header errors, 417 challenges recommended to be upheld, 700 challenges recommended to be rejected, 164 challenges with miscellaneous identifying issues, 47 signature errors, and 210 duplicates and 8 signatures crossed out prior to filing.

RESULTS OF PETITION CHALLENGE:	5,461
	- 973 (Disqualified)
	4,488 (reviewable signatures)
Not Registered/Not Registered in District	- 417
Duplicates	- 210
Signature Errors/Miscellaneous Identifying issues	<u>- 211</u>
Total Number of Valid Signatures	3,650

STAFF RECOMMENDATION: Determine petition insufficient.

		104 Petition Sheets	973

DATE: February 23, 2026
TO: Candidates, petition sponsors, and petition circulators
FROM: Michigan Board of State Canvassers
SUBJECT: Disqualification of persons and organizations from collecting petition signatures

Effective today, February 23, 2026, the following persons and organizations are disqualified from circulating petitions for four years in the State of Michigan, pursuant to MCL 168.544c(13)(c). Effective today and until February 23, 2030, each petition signature identified in a challenge as gathered and found to be gathered by the following individuals or by a circulator hired by the following companies shall be determined to be invalid.

- Shawn Wilmoth
- Willie Reed
- First Choice, LLC
- Mack Douglas, LLC
- Petitions Reed, LLC

Petition sponsors and candidates should research circulator companies and check their work. Candidates and petition sponsors should be sure they are hiring reputable companies or circulators that will collect and submit valid signatures as required by law. Petition sponsors and circulators should review petition sheets collected by circulators periodically during the collection period to ensure valid signatures are being collected and all required components are accurately completed to maintain signature and petition sheet validity.
