DISPOSAL AT HOME - DO NOT FLUSH!

Federal prescription drug disposal guidelines are designed to reduce the diversion of prescription drugs, while also protecting the environment. These guidelines urge Americans to:

Take unused, unneeded, or expired prescription drugs out of their original containers. Mix the prescription drugs with an undesirable substance, like used coffee grounds, cat litter, or old latex paint and put them in impermeable, non-descript containers, such as empty cans or sealable bags, further ensuring that the drugs are not diverted or accidentally ingested by children or pets. Throw these containers in the trash.
